HOT WEATHER. The Weather for the COMMERCIAL SPECIAL DISPATCHES, TELEGRAPHIC. ast few days has been excessively hot. don't know exactly where the thermomeste has stood, but imagine it has nearly reached the boiling point. We have an idea that ladder would be required in order to ascertain how high the mercury ranges. Thin olothes are much in favor at present, the fashion being as seanty apparel as the the inexorable laws of decency will allow. Shady orners which breezes are accustomed to and their vivifying presence to, are greatly affected about these days. Fans are at a premium, and drinks with ice "into them' are rendered indispensable luxuries. It is too hot to enjoy life and we only continue to exist under protest.

Accidence.-On Thursday last a mar need Andrew Wershin, of Brooklyn, met with a serious accident. He was hauling water with a horse and wagon and the horse becoming frightened he was thrown violently to the ground. The wheels run over hisbody, breaking four of his ribs. One of the broken ribs punctured his lungs. Dr. Capner was sent for, and attended to the injured man. He will probably recover.

On the same day as the above, a little con of J. H. Nell, on St. Clair street, fell out of a cherry tree, and broke both his arms. PARADE SY THE FIRE DEPARTMENT,-

The newly organized Fire Department wil make its first parade to day at 10 o'clock, starting from No. I's bouse, Frankfoot street, and passing through the principal streets. The procession will consist of the four steam fire engines, four new hose carts, (just rereived from II. C. Silaby's Manufactory Seneca Fails, and the new Hook and Ladde cort, headed by a band of music, all under the direction of Mr. J. W. Craw, Chief Engineer of the Fire Department. The McClellan Canard-Franking -- Reduced Regiments.

[To the Cincinnati Gazelte.] WASRINGTON, July 2. Rumors of the President's intention recall McClellan to the command of the army are totally groundless. Persons conversant with the causes of General Hooker's removal, assert that the reasons for The Contest Resumed Friday. the action on the part of the Government were so similar in both cases that the recall of McCiellan would be simply self stulification.

The Commissioner of Internal Revenue onstrues the new Postoffice law to deprive Collectors and Assessors of the power t frank official documents. Four copperhead clerks were removed from the pension Lurson on the 1st day of Johnston Further Reinforced.

By sentence of court martial Lieutenant Thos. C. Baldwin, Seventh Indiana, is dismissed the service for drunkenness, &c.; private John Hardesty, Sixty-fifth Ohio, asleep on outpost duty; private W. Dodges ompany I, Fourteenth Michigan, convicted of desertion and theft; private John W. Beyser, company G, thirty-second Indiana convicted of desertion, are all sentenced to be shot. The sentence of the first bas been commuted to forfeiture of six months' pay; the second, the sentence remitted under the President's proclamation; the third, remitted and the accused discharged on account of insanity. Captain James Starkey, 1st Union Mounted Ran-

Under the Enrollment act it is ordered that, whenever a regiment is reduced be low the mininum, infantry regiments be deprived of a Colonel and assistant surgeon, and each company deprived of a 2d eutenant. Cavalry and artillery regizents to be deprived of colonel, major, and assistant-surgeon, cavalry companies deprived of a 2d Heutenant each. A battery reduced below the minimum to be deprived of additional officers.

The minimum is fixed at 1,044 as the aggregate for a regiment, and 86 the a; gregate for a battery. All officers in the enumerated grades, now properly in the service, will be retained until the grades ecome vacant by casualties. After the aduction, the reduced proportions will be maintained, and no appointments be made to the vacancies in the enumerated grades except on notification from the Committioner of Musters that the regiment is bove minimum.

General Walbridge is going to deliver the Fourth of July oration here. General Pope telegraphs that several Minnesota Indians, who escaped when the troops were removed from Minnesota, are killing and plundering the people in the western part of the State. He desires an Indian Agent to take charge of them immediately, as he has no troops to collect them for removal,

Excitement in Baltimore-Davis is reported to be with Lee's Army--Maryland Heights Evacuated.

ITo Cincinnati Commercial I Риплавирита, July 2-11: р. м. excitement intense. Great anxiety is felt to hear from the contending armies. During the day the fortifications have been ousiderably strengthened. Every confience is felt that we will be able successfally to defend the city.

A report is prevalent that Jefferson Davis is with Lee's army. Baltimore papers this morning report the evacuation of Maryland Hights in order that it may not be interpreted as a reverse on our part. It was about the first act of General Meade after his assumption of he command of the army of the Potomac. The men who garrisoned the Hights were of no service to General Meade in executing his plans for movemen's against the rebel army. The evacuation was executed in order that everything of value might be cemoved and the works blown up and destroyed, so that the enemy can not use
